

New Landing Field Selected by Officials

Inspector of Civil Aviation Makes Survey of Pass for Mountain Air Mail Route

C. J. B. Dunbar, of the Dept. of National Defence, and Capt. A. D. McLean, director of civil aviation, whose headquarters are Regina, were here selecting a new site for an emergency landing field for the air mail service.

The landing field in use for forestry patrol planes and others using the Crow route over the Rockies was found too small for the heavier type machines to be used on the mail service, therefore a piece of ground was selected giving longer runways. It is a short distance west of the present field. It is difficult to find level stretches of land in this area except at rare intervals, and an option was taken on a part of E. C. Fleming's ranch in order to give the required length. It is about four miles south of Crows Nest mountain, of which a splendid view is obtained from the landing field, and parallel with the C.P.R. Crows Nest line and the inter provincial highway, so that it is easy of access.

It will be lighted from the plant of the East Kootenay Power Co., about two miles distant on Crow's Nest Lake.

The mail service will not be inaugurated over the mountains till all work is completed on the various landing fields, as Capt. McLean states that mountain flights are too hazardous to commence the regular service till adequate safeguards are provided for the pilots.

Guiding lights will also be placed at the eastern approach of the Crows Nest Pass, as the route follows the railway line which passes through a gap between Turtle and Goat mountains.

Mr. Ross, surveyor of the department of National Defence, spent Thursday and Friday here making surveys and had some test pits dug to determine the nature of the soil for the purpose of ascertaining the approximate amount of work required on the field. There is a lot of rock on the surface and beneath, so that it is probable that it will be cheaper to take off the surface rock and fill the depressions than to grade the field to a uniform level.

In any case the cost will run into a considerable sum, \$40,000 to \$50,000, and if it is decided to proceed with the work the ground will have to be fenced.

The tentative schedule of the mail service would be for the east-bound planes to leave Vancouver at noon daily, so that it would be between 5 and 6 p.m. when they passed over Coleman. Going west it would be early morning when they passed here, which is the reason the field will require to be lighted, as during the short days of winter it will likely be dark when both east and west-bound planes arrive here.

This will be the only field between Pincher Creek and Fernie, and Capt. McLean states that the service will not be started until all ground arrangements have been completed, so that it is not likely the mountain air mail service will not be inaugurated till next year.

The visiting officials were given the co-operation of the Board of Trade and the Forestry Department officials while here, as well as that of International and McGillivray Coal Companies.

George Derbyshire and W. Borrows and their families have been spending a week camping at Water ton Park, and visited Lethbridge.

Junior Baseballers Having Lots of Fun

The local team under the management of Ildis Hayson has played several matches during the past two weeks. On Sunday they played at Blairmore where the score was about 21 to 17 in favor of Coleman, and last evening a return game was played here where Coleman again was victorious.

Joe Kapelka is the star pitcher for Coleman, and is becoming quite proficient. In a match at Bellevue he struck out players 18 times. With such a record Joe will develop into a big league pitcher.

Players on the Coleman team are I. Hayson, J. Atkinson, F. McLeod, R. Patterson, W. Jenkins, C. Blower, Vic Lilya, O. Kulbin and L. Emmerson.

W. Hogan refereed last night's game.

In order to encourage the boys the public should turn out to the games, and thereby give added interest.

Sermon on the Mount

Not on Mount Sinai, but on Crows Nest Mountain, was this sermon preached, by the Rev. A. E. Larke, after a five hours arduous climb in company with nine others.

On Tuesday the young men in the party were Fred Deagan, Jack Price, Will Lonsbury, Wilbert Cox, W. Wilson, Bob Wilson, James Kilgannon, Sam Gillis and Matt Burrell. At 2 p.m. they signalled from the summit with a mirror, and answering signals were given by friends in town who were watching for them.

The best view is from the mountain, and the little shelter that was possible was eagerly sought. Strange to say, there were swarms of flying ants on the summit.

The party returned to town at 8:30 p.m., well pleased with having added to the number of the hardy individuals who have reached the Mecca of local mountain climbers.

Young People's Service at United Church on Sunday

On Sunday evening next, August 3, at 7 p.m., the Young People's Society of the United Church will have complete charge of the service, with the exception of the address, which will be specially for young people, by the Rev. A. E. Larke, but which will be of interest to the parents as well as the young people. The subject of the address will be "The Magnetism of Jesus." A cordial invitation is extended to members of other churches who may not have services that evening to attend.

He Smoked Once Too Often

Smoking around a gasoline filling station is one of the commonest of habits. But it is a habit that the customer soon will break if he has the experience of a motorist who called for gas at a station in Los Angeles. By lighting a cigarette near the gasoline tank, he caused an explosion that damaged the station to the extent of \$11,000. In spite of a strong defence that the proprietor had no ground for action, the Superior Court held the defendant customer responsible.

The Salvation Army

Sunday, 11 a.m. Holiness Meeting. 2 p.m. Directory Class for the young people. 2:30 p.m. Company Meeting. 7 p.m. Salvation Meeting.

Officers in charge: Wm. Slous, Capt., and J. Wiseman, Lieut.

THE NEW PREMIER

Richard Bedford Bennett, K. C., whose party was elected by a majority over all other parties and groups combined in Monday's election

To the Electors of Macleod Federal Constituency:

I desire to thank all those who voted for me in the election on the 28th instant. The support I received from all parts of the Constituency was extremely gratifying. Many Liberals and U. F. A., joined with our Conservative friends in voting for me and to one and all I extend my very warmest appreciation. Throughout the contest I experienced nothing but kindness and courtesy from friends and opponents alike.

Joseph D. Matheson,
Macleod, Alberta,
July 29th, 1930.

Majority for Matheson in Mining Towns

A comparison of the vote in the Crows Nest Pass towns shows that though Mr. Coote, the U. F. A. candidate, was officially endorsed by Labor, a majority voted in favor of the Conservative candidate.

In the provincial election a similar condition prevailed, when the candidate not endorsed by Labor won a majority of votes.

The Pass towns, including Pincher Creek, Beaver Mines and Brocket, polled 1722 votes for Matheson and 1159 for Coote, giving a majority of 563 for the Conservative. Turner Valley, where there is a big Labor vote, gave 530 votes for Matheson and 239 for Coote, so that it would indicate that the ranks of Labor favored the platform of R. B. Bennett and voted for a change.

Thanks to Electors

"I wish to thank all those who supported me at polls on July 28th and particularly all those who worked so faithfully to ensure my re-election."

G. G. Coote.

Both candidates were given good support in Coleman. For Mr. Matheson a ladies committee was organized which put in a lot of work in calling on the women voters, and Joe McChalky was out bringing in voters in his car throughout the day, as well as Hugh Dunlop and others. Jas. Scott kept a fatherly eye on the (Continued on Page Eight)

Polish Catholic Church of Canada Opens Here

Rt. Rev. Joseph L. Foltyski, head of the Polish Catholic Church in Canada, arrived last week from Hamilton Ont., and for the present will conduct services in the home of Mr. A. Kryzwicki at the following hours:

Sunday, 8 a.m., low mass; 10:30 a.m., high mass and sermon; 4 p.m. vespers and sermon. Daily mass at 8 a.m.

The first congregation of the Polish Catholic Church in North America was organized in Chicago 35 years ago by Rt. Rev. A. Korolkowski, bishop of the old Roman Catholic church. The first synod was held on Feb. 7-8, 1920, at Detroit, Mich., at which the bishop elected was Rt. Rev. Joseph L. Foltyski, who at that time was rector of St. Paul, Wash., following the example of the first Christian church or the principle of vix populi, vox Dei. The bishop's consecration was performed for him by Rt. Rev. Stanislaus B. Mickiewicz, bishop of the old Roman Catholic church in Westville, Ill.

After that, this church was incorporated in the city of Olympia, Wash., June 21, 1921, as a diocese of the Polish Catholic Church under the jurisdiction of the Rt. Rev. Joseph L. Foltyski, and on Nov. 22, 1929, it was incorporated in Toronto, Ont., under the name of the Polish Catholic Church of Canada.

The church is independent of Papal authority and has the succession to those "Old Catholics" who refused to assent to the dogma of the infallibility of the Pope decreed by the Vatican council of 1870. Contributed.

Coal Selling Agency Organized

To promote the sale of steam coal from the Crows Nest Pass mines an agency has been established in Winnipeg, of which Mr. Hyman will have charge. It is believed that with direct representation in the city, increased orders may be secured for the mines of this district, as the competition of imported fuel from the United States has made serious inroads into the output of this district for some years. With the subvention rate in force, operators are determined to try and regain a big share of the coal business in Manitoba.

Capt. R. F. Barnes returned for a brief spell from Sarnee Camp, and left again on Tuesday night. He will act as range officer for artillery training at the camp for three weeks.

Further Improvements to Local Utilities

Contracts for Material and Labor on Waterworks and Light System Awarded

Tenders on the 1930 schedule of construction of the Coleman Light and Water Company, Limited, have been received and contracts awarded as follows:

For cost of pipe and special castings for waterworks construction, Canadian Fairbanks's Morse Co., Ltd., Winnipeg, for \$190,177.

For valves, service materials, etc., Empire Waterworks Supply Company of Canada, Ltd., Winnipeg, for \$288.05.

For labor only of waterworks construction, J. S. D'Appolonia, Coleman, \$2792.61.

For both material and labor of electrical construction, J. S. D'Appolonia, Coleman, \$3170.85.

Hospital Notes

Wm. Jackson is making a fine recovery from his serious injuries of two weeks ago in the International mine when both legs were fractured and Electrician Mitchell, who was so badly injured that it was thought impossible for him to survive, is now on his feet again, his wounds having been successfully treated by skin grafting by Dr. Borden Martin Guida, miner, whose skull was fractured, is also making steady recovery, after being in a very critical condition.

Harry Proudlock passed out early on Tuesday morning. He was admitted on July 12 suffering from blood poisoning in his feet, but declined to have it amputated. About two years ago one leg was amputated as the result of an accident when he was teaming logs. He recovered from that operation and had been living in town until he was again admitted to hospital. He was over 60 years of age, and his only known relative is a daughter living in Vancouver. In his young days he was active in hockey and lacrosse, and he served overseas with the C.E.F.

A. A. McKenzie, municipal relief officer, of Edmonton, was visiting the town office this week.

Mr. and Mrs. John Watson of Van 98 left on Tuesday via the Kettle Valley to spend three weeks holiday at Vancouver.

Eleanor Broune of Revelstoke is spending her school holidays with her cousin, Betty Thomas.

When a Laxative Gripes

--- BEWARE!

Severe abdominal pains, griping, after taking a laxative is an indication of unnatural strain that may cause serious injury. No laxative that causes such discomfort is safe, or necessary. Eno's is pleasant, gentle, safe and sure.

A daily dash of Eno's "Fruit Salt" in a glass of water, night or morning, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

ENO'S
FRUIT SALT

The World's Grain Exhibition

The World's Poultry Congress is now in progress at the Crystal Palace, London, England, including a representative display of birds from the poultry industry in attendance. A year or two ago Canada was honored by being host to the World's Poultry Congress, held in Ottawa, and which proved to be the most successful of these world congresses held up to that time. Canada received most valuable publicity as a result, while the poultry industry throughout the Dominion was decidedly benefited thereby.

Canada is again to be host to a world's exhibition and conference in 1932, when the World's Grain Exhibition and Conference will be held in the city of Regina, Saskatchewan. It will be the greatest grain exhibition and conference ever held, with over \$200,000 in cash prizes, an unprecedented sum, to be awarded, while grain experts from all over the world will be in attendance to participate in the conference.

Already the response of countries in every hemisphere has surpassed expectations. To date nearly one million copies of the official prize list have been distributed in 84 countries. They have been placed where they will do the most good, and give a maximum of advertising to Canada, and Western Canada in particular, in every corner of the civilized world.

Canada as a country dependent on agriculture, and suffering all the growing pains of the young, needs this advertising, and even supposing no person from outside Canada attended the Exhibition and Conference at Regina, in 1932, the world-wide advertising already secured would be an ample return for all monies expended to date.

But the countries of the world will be represented, not only by interesting and instructive exhibits, but by leading agricultural experts. The Government of Canada officially issued invitations to other countries to participate and today—two years before the event—eight countries have accepted. These are Peru, New Zealand, Guatemala, Poland, Czechoslovakia, Yugoslavia, Belgium and the Netherlands. The Governments of Slovakia, such as the United States, Great Britain, France, the Argentine, Australia, have asked for further and more complete information, and by 1932 it is expected at least 50 countries will have accepted the invitation and be present.

The management of the World's Grain Exhibition and Conference has taken advantage of the World's Poultry Congress, in London, England, this month to further its campaign for world-wide participation at Regina in 1932, and has sent an exhibit to London, and this week are entertaining, in London, the official delegates of 56 countries. At this luncheon the managing director of the World's Grain Exhibition will address these delegates and outline to them why they should participate at Regina. Afterwards he will visit the ministries of agriculture, of the countries of Europe, to drive that message home.

Exhibits of the World's Grain Exhibition are also being prepared for the Canadian National Exhibition, and the Royal Winter Fair, at Toronto, and the International Grain Show at Chicago.

This is what is being done to bring the world to Western Canada in 1932. But, and this is important, Western Canada should put forth every effort to retain for this country the world's championship wheat trophy. Other countries are going to try and capture it; we are asking, even urging them, to make the attempt. Western Canada must therefore look to its laurels. The wheat farmers of Western Canada—the best in the world—must be alert and put forth their best efforts, individually and collectively, to retain for this Dominion the proud title of the World's Wheat King.

Now is the time to prepare for the exhibition. It cannot be put off until 1932. It must be done in 1930 and 1931.

To Cope With Cancer

War-Time Mustard Gas Now Used For This Purpose

Use of war-time mustard gas in combating cancer is described in the annual report of the grand council of the British Empire cancer campaign.

The report said, "Mustard gas seems to be the first true anti-cancer agent ever discovered." Action of the gases was explained as being localized to the particular area under treatment and its cure to be strictly limited in time. But none the less on that account a remarkable cure."

Baker Lake

According to the records of the Geographic Board of Canada, Baker Lake was so called in 1762 by Captain Christopher of the ship "Churchill," who discovered the lake on ascending Chesterfield inlet from Hudson Bay in that year.

Usual Order Reversed

Cleveland Children Look On While Parents Graduate

The usual order of school commencements was reversed at Cleveland when an audience of children sat in the auditorium of John Hay High School and applauded their parents as they marched to the platform to receive high school diplomas. The occasion was the annual commencement of the Cleveland Extension High School.

Agnes of the graduates ranged from 17 to well past middle age. In the class was a golf professional, an assistant sales manager, a chief auditor, a credit manager, an assistant treasurer and a field manager for a large oil company.

Have Minard's Liniment on your shelf.

World Depression In Wool Prices

New Zealand, like Australia, has been hit a severe blow by the world depression in wool prices, it was revealed recently. The gross receipt of the New Zealand wool sales this year were almost \$35,000,000 below last year's yield. Wool forms by far the largest part of New Zealand's exports, the value of the wool export in 1923 being more than \$90,000,000.

A beam of light travels so fast that it could make a round trip from New York to San Francisco in approximately a seventy-fifth of a second.

China plans to spend \$4,000,000 in improving its government telegraph lines.

Archbishop Opposed To Death Penalty

Says It Lowers Conception Of Sanctity Of Life

The Most Rev. William Temple, Archbishop of York, is one of the few witnesses who has come so far before the Royal Commission on punishments to favor the abolition of the death penalty.

"Dissent from the view that punishment should be regarded as regulated vengeance," the Archbishop stated, "From a Christian viewpoint, vengeance is entirely illegitimate. The infliction of death or outlawry would, perhaps, be justifiable in the case of a man who was wholly evil but no person was ever that." The main argument advanced by the Archbishop from a sociological viewpoint was that the behaviour of a community as a whole was so largely imitative that the reaction to the taking of life by the state would lead to a lower general conception of the sanctity of human life.

Summer Complaints Kill Little Ones

At the first sign of illness during the hot weather give the little one Baby's Own Tablets or in a few hours he may be beyond aid. Baby's Own Tablets will prevent summer complaint if given occasionally to the well child, and will promptly relieve the troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee that they are absolutely safe. They are sold by all druggists or by mail at 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

May Purchase Canadian Land

Another English Peer Interested In Farming In Dominion

The possibilities of southern Saskatchewan for ranching on a large scale were investigated recently by Lord Middleton, Yorkshire landowner, who is touring Canada with a view to purchasing land in this country. Lord Middleton specializes in breeding beef cattle on his 3,000-acre farm in the north of England. He recently made the decision to dispose of the whole of his estates, comprising some thousands of acres, driven into this step by the excessive burden of taxation to which every British landowner has been subjected since the war. It is his plan to take up land in Canada. He was an interested visitor at the Brandon Summer Fair, and in all the department he visited, those in charge were rather amazed at the knowledge he had of farm affairs and of horticulture. He brought over to Ontario some fifty Yorkshire ladies, who will be placed on Ontario farms.

Toothache and neuralgia are instantly relieved with Douglas's Eucalypti Liniment. A quick sure remedy. Also recommended for burns, sprains, sores and inflammation.

Father Of Many Inventions

Sir Charles Wheatstone Gave Many Scientific Ideas To World

The concertina celebrated its centenary by Charles—afterward Sir Trent last year. It was invented and named after a wonderful man, for his inventions seem to have been legion. Sir Charles invented, for example, the stereoscope, by which the appearance of solidity is obtained through the mental combination of two pictures, and the polar clock, which made it possible to tell the time by the light from the sky although the sun might be invisible. It was he who made the electric telegraph available for the public transmission of messages. And in between his scientific studies he sandwiched the invention of our little musical friend the concertina.

Wax figures for store windows in London are being made to represent Helen Wills, Princess Elizabeth, Prime Minister MacDonald and other well-known people.

To Patrol the Straits

Government Ice-Breaker Is Leaving For Northern Waters

The new government ice-breaker, the "N. B. MacLean," is to take her maiden plunge into Arctic waters launched at Halifax a few months ago, is named after Major MacLean, the government's chief authority on ice and ice-breakers, who commanded the Hudson's Straits expedition two years ago.

The ships will take up supplies to four directional wireless stations, established by the ministry of marine on Hudson Bay and manned by wireless operators of the radio branch. These stations are located at Cape Hay's Advance, Resolution Island, Nottingham Island and Fort Churchill.

The ice-breaker will patrol the straits all through the fall months and when the northern ice begins to close down will protect the shipping in Hudson's Bay and through the straits.

Plagues Britain

France-Italian Naval Conventions Will Help London Naval Treaty

Prime Minister MacDonald told the British House of Commons recently, that the British Government had learned with pleasure of arrangements made by the governments of France and Italy with a view of facilitating resumption of discussions on naval questions.

Mr. MacDonald said the British government hoped these Franco-Italian conversations would complete the work of the London Naval Conference and that the principles of naval limitation, as contained in part three of the London Naval Treaty, would be applied to all parties to the conference.

He said it was not necessary for the British Government to take any action in this connection regarding the British naval program of 1930 since this was purely for necessary replacements within the reduced tonnage limits imposed by the treaty.

Persian Balm—there is nothing like it for creating and preserving a lovely complexion. Cooling, caressing—it soothes and dispels all roughness or chafe caused by weather conditions. Delicately fragrant, it adds exquisite charm to the most finished appearance. Dainty women inevitably choose Persian Balm. A velvety smooth lotion, it makes the skin rose leaf in texture. Recommended also to soften and whiten the hands. Truly a perfect toilet requisite for every woman.

Centenary Of The Match

France is preparing to celebrate in 1931 the centenary of the phosphorus match. It was 99 years ago that a young student, Charles Saurel, of Dole, dipped slivers of wood into liquid phosphorous and was able to light the match by striking it on a file.

Freshman: "What would you do if the girl you were calling on raved and shrieked that she never wanted to see you again?" His Buddy: "I'd jump to my feet and leave."

"And let her fall to the floor?"

Railplane Has Been Tested

Torpedo-Shaped Coach Is Driven By Two Propellers

The world's first experimental railplane system, backed by the London and Northeastern Railway, has been inaugurated at Milingway, Scotland.

A torpedo-shaped coach driven by two aeroplane propellers, operating fore and aft, and drawing electrical power from the overhead rail to which it is suspended, flashed over an experimental stretch of track built along the main right-of-way of the London and Northeastern Railway.

It carried 25 passengers and is capable of developing a speed of 150 miles an hour on a long stretch of track, according to its designer, George Binnie, a Scottish engineer.

The railplane is England's answer to the demand of the aeroplane age for speedier transportation. The new system was inspected by delegates to the Transport Congress, which met in Glasgow. If it wins their approval, plans for a railplane system between Blackpool and Southport, a distance of 25 miles, will be carried out.

A railplane system can be built at one-third the cost of a double track railroad system, say the London and Northeastern experts.

Each railplane coach will be self-propelled and will run alone. The overhead rail will direct the course and guide rails will keep it from swinging. The car is stopped by reversing the propellers, which then act as brakes.

The aerial railway can be erected over roads, canals or as in the present instance, over railroads, without interfering with the ground traffic. Thus, in the case of railroads, a ground line could be used for freight, while the air line could be used for speedy passenger service and the carrying of mails.

Show Decided Increase

Progress Reported For Creameries All Over Alberta

Alberta creameries during the first four months of the year have shown an increase of 4.4 per cent over the similar period of 1929, and 35 per cent above the same period of 1928. Creameries in the south of the province showed an increase of 1 per cent, those in the central part a similar increase, and those in the northern zone a 19 per cent increase.

Complete in itself, Mother Grace's Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

Nanking Is Ambitious

Has Extensive Plan To Reconstruct City In Big Way

Nanking, China, proposes to reconstruct the city in a big way. Already 77 proposals of improvements have been adopted. Among them are the construction of a river port, installation of a waterworks system, opening of a metropolitan park, and a Grand Metropolitan Museum, provision for three clinics, promotion of industry and the opening of factories, development of afforestation, and laying out of a beautiful residential district.

HEADACHES

Needless pains like headaches are quickly relieved by Aspirin tablets as millions of people know. And no matter how suddenly a headache may come upon you, you can always be prepared. Carry the pocket tin of Aspirin tablets with you. Keep the larger size at home. Read the proven directions for pain, headaches, neuralgia, etc.

Artificial Wool

Artificial Sheep Will Grow Wool

Indefinitely, say scientists. The artificial sheep will grow real wool indefinitely is the prediction of the British Research Association for the Woolen and Worsted Industry following recent experiments in the hair growth of animals. By merely slicing off pieces of live sheepskin and placing them in vials containing a certain chemical solution, the pieces may be continuously nourished and thus produce hair year in and year out. Cowhide also might be treated in the same way, say the association chemists.

Morning Eggs Weigh More

Tests Show Them Heavier Than Those Laid In Afternoon

Tests conducted on different chicken farms by C. Howard King, poultry supervisor of the Wisconsin Department of Agriculture and Markets, revealed that eggs laid in the forenoon weigh 24.115 ounces a dozen while those laid in the afternoon averaged only 23.539 ounces, according to a report from Madison, Wisconsin. This suggests another problem for commercial egg producers—how to make hens lay in the forenoon—and bigger eggs.

Minard's Liniment for Lumbago and Neuralgia.

Game In Canada

The physical characteristics of Canada—its innumerable lakes, extensive forests, and great open prairies—combine with its natural geographical situation to constitute a distinct faunal region within which is to be found almost every species of game native to the North American continent.

AIRWAY PLANS FROM HUDSON BAY TO BRITAIN

Vancouver, B.C.—Imperial airways spanning the Northern Atlantic Ocean and Hudson Bay may some day link Canada with the other aerial routes of the British Empire, declared Major-General J. H. MacBrien, addressing the Canadian club here.

President of the Aviation League of Canada, he told how plans are now being laid for a trial flight across the northern route via Hudson Bay to Europe in 1931. Gasoline for this trip is now, through the courtesy of the Hudson Bay Company, being placed along the route.

At the same time, General MacBrien predicted that valuable as this connection will be in the Imperial scheme of things, a great portion of the air traffic between these, the British India route had been established and with it a feeder line running from Cairo across Africa.

On this feeder line, as he called it, the gold of South Africa is already being taken to Europe and put into circulation weeks before it would otherwise reach great centres of population. This meant the saving of much in interest.

The speaker also pictured the trial flight of the R-100, which will soon take off for this country, as forging another link in the aerial chain around the British Empire.

"Canada's geographical position," the general said, "is a most fortunate one—we can control these routes that pass over our country, and we must control them. We must have Canadian operated services."

Second Reading Given Naval Treaty Bill

No Division In British House Of Commons

London, England.—The bill supporting the London naval treaty giving effect to the naval reduction compact signed recently passed the second reading in the House of Commons without a division.

Parliamentary Secretary G. G. Ammon explained that under the British legal system a treaty, although it might be binding and have effect on the British Government, could not be enforced in law courts against private individuals unless supporting legislation was passed.

Under the Washington treaty Britain entered into certain agreement not to build or provide by private shipbuilding certain vessels of war. The London treaty contained alterations of three agreements. To give effect to them, the Commons was asked to approve the bill.

Compelled To Cancel Official Engagement

Weather Conditions Forced Prince To Abandon Airplane Trip

London, England.—For the first time on record the Prince of Wales was forced to cancel an official engagement because of weather conditions.

Weather reports from Wales indicated flying conditions were impossible and the Prince cancelled an aeroplane flight which he had intended making from London to Carnarvon to open the Royal Welsh Agricultural Show. As it was impossible to reach Carnarvon from London by train in time for the opening, the whole engagement was abandoned.

Raps Border Patrol Bill

International Falls, Minn.—Denouncing the proposed border patrol bill before Congress as comparable to "barbed wire fences between Canada and the United States," Congressman William Pittenger, Duluth, was the principal speaker at the Border Press Association's annual meeting here.

No Passengers Killed

Ottawa, Ont.—Railway accidents in Canada during May took a toll of 41 lives and resulted in injuries to 185 persons. It was shown in a report issued by the Board of Railway Commissions. None of those killed were passengers on trains. Accidents at railway crossings resulted in 15 persons killed and 38 injured.

Peddlers of Cuba are offering cheap wares on the installment plan.

W. N. U. 1848

Aviation Pioneer Dead

Glenn H. Curtiss Did Not Lose Faith When Others Became Discouraged

Buffalo, N.Y.—Glenn H. Curtiss, widely known aviation pioneer, died in the General Hospital here.

Mrs. Curtiss was brought to the hospital from his home at Hammondsport, N.Y., to undergo an operation for appendicitis. The operation was said to have been successful and he was reported recovering rapidly.

Mrs. Curtiss came here with her husband and has been almost constantly at his bedside.

Hospital authorities stated death was due to pulmonary embolism, caused by a blood clot on one of the main arteries leading out of the heart.

Glenn H. Curtiss nurtured the young science of aviation in the middle years of its development, when fainter hearts had grown discouraged.

With a tomato can for a car-buretor, he built his first motor bicycle in 1902. He continued to experiment with lightweight motors and evolved his famous V-type motor, a departure in design reflected in the radial airplane engines of to-day.

In 1904 he set a motor bicycle speed record at Ormond Beach, Fla., of 10 miles in eight minutes and 54 seconds, and in 1906, over the same course, travelled faster than man ever had before, a mile in 26.25 seconds.

His fame spread and drew the attention of the late Major Thomas Scott Baldwin, builder and operator of balloons.

In 1909 the two men met in Hammondsport and installed a Curtiss motor in Baldwin's balloon.

With this machine they made a circular flight of Oakland, Cal., in August, 1909, first to fly that way.

Dr. Alexander Graham Bell, inventor of the telephone, commissioned Curtiss to build a motor for a man-carrying kite. Gliders were experimented with for a time, and then the men turned their attention to power aeroplanes.

Floods In England

Two Lives Lost In Consequence Of Cloudburst In Yorkshire

Whitby, Yorkshire, England.—Two lives are already known to have been lost, and other fatalities are feared, in consequence of a flood that followed up a cloudburst in the valley of the Esk River.

The last connection with the village of Sleights, in the centre of the flood area, was severed late today when the telephone wires broke down.

Many families throughout the area are imprisoned in the upper floors of their houses.

The train service has been discontinued over a wide area.

Spectacular rescues were effected by the life saving crews, who did considerable effective work in Russia.

From one house a woman and four children, who had climbed to the roof, were hauled through the flood to safety by means of a breeches buoy brought into play by the coastguard.

From another house five people were rescued by the coastguard with life-saving apparatus at a time when the water had already reached the bedroom windows.

Twenty people were rescued from the upper storey of a mill.

The town crew of Whitby patrolled the streets and warned the populace that the water supply would last for only 48 hours. The pipes from the reservoir had been burst.

Hoover Signs Naval Treaty

To Limit Fighting Vessels For Three Great Powers

Washington, D.C.—In the historic east room of the White House, President Hoover signed the London Naval Treaty.

Ratification by Great Britain and Japan and the depositing of all three signatures in London remain to be accomplished to bring into effect the covenant limiting for the first time all categories of fighting vessels for the three great naval powers.

No Reduction In Pay

Ottawa, Ont.—Department of railways and canals in a statement recently declared that men working on the Welland Canal were not reduced in pay as a result of the application of the eight-hour day and 44-hour week. All men, the statement said, will receive the same weekly wage as they did before parliament passed the legislation at the last session.

Small Fire In Orphanage

Whitnapp.—The young inmates of St. Joseph's Orphanage here, marched out in orderly fashion and were unharmed when the attached institution, starting in a cupboard, blazed quickly spread to the dormitory roof but quick arrival of firemen prevented extensive damage.

Scores Drowned At Coblentz

Pontoon Bridge Collapsed Under Strain Of Heavy Traffic

Coblentz, Germany.—Scores of persons were drowned in the collapse of a pontoon bridge here during celebration of the evacuation of the Rhine-land in which President Von Hindenburg had taken part. About 100 people were on the bridge when it crumbled.

An enormous crowd had gathered along the banks of the Rhine during evening at the so-called "Deutsches Eck" where the Moselle River joins the Rhine.

They stood watching the display of fireworks and the illumination at the ancient castle of Ehrenbreitstein in honor of President Von Hindenburg's visit.

When the display was over, thousands of people tramped across the pontoon bridge, which leads to a place known as "Security Harbor."

Suddenly, while about 100 persons were on the bridge, it collapsed under the strain of the unusual traffic.

Many were killed by falling timbers, and others were swept away in the black, swirling water and drowned before help could reach them.

In the darkness, which lately had been intermittently illuminated by the fireworks across the rivers, people could be heard splashing about and crying for help.

Rescuers immediately launched boats, but many of the victims could not be located.

ADMINISTRATION OF PEACE RIVER BLOCK BY B. C.

Victoria, B.C.—British Columbia takes over the administration of the Peace River block and the railway belt on August 1, under tentative plans announced by the government. Efforts are being made now to adjust the necessary administrative details by that date.

The actual transfer will be accomplished without the disturbance of existing administrative machinery. For the time being, federal officials will carry on. As soon as possible, however, the administration will be entirely reconstituted to eliminate the present duplication by federal and provincial officials, particularly in the railway belt, where two sets of machinery have operated side by side for years.

In some offices the provincial officials will be able to carry on alone, possibly with addition of one or two from federal territory. In the forestry department, however, it may be necessary for forest patrol in the large areas to be transferred.

A Generous Gift

American Philanthropist Offers Ten Million Dollars For Educational Work In Britain

London, England.—The Daily Herald, government organ, says that Edward Harkness, of New York, American philanthropist, has offered £2,000,000 (about \$10,000,000), for the endowment of social and educational work in Great Britain.

The gift is to be administered by a board of public men. Invitations to serve on it have been sent, among others, to former Prime Minister Stanley Baldwin, Sir Joseph Stow, the great financial expert, and to John Buchan, novelist and member of parliament.

Presented To Rulers

London, England.—John McCormack, the Irish tenor, was presented to the King and Queen at a garden party in Buckingham Palace, July 23. Prof. Smiddy, high commissioner for the Irish Free State, introduced him.

Leaders Meet

Rudyard Kipling and T. B. Macaulay, president of the Sun Life Assurance Company of Canada, leaders in literature and finance, aboard the Canadian Pacific liner "Duchess of Bedford" on their arrival in England.

VISITOR FROM ANTIPODES

A. R. Harris, general manager of the Radio Broadcasting Co., of New Zealand, who spent the past two weeks studying conditions in Canada.

Air Tragedy Told

Aviator Makes Heroic Attempt To Save Life Of Youthful Passenger

Edmonton, Alberta.—A story of heroic deeds and of a heroic battle by Dnie Atkinson, Western Canada Airways pilot, in the freezing waters of Lake Nisku, Northern Saskatchewan, to save the life of his passenger, was told with the arrival of the body of the passenger, Woodrow "Chuck" Eagle, 17, of The Pas, Man., brought from the north by aeroplane.

Atkinson came out with the body in an aeroplane piloted by W. E. Gilbert.

Eagle died when Atkinson, running into a terrific windstorm which had attained the proportions of a typhoon, swung about, raced to Lake Nisku, landed and was pushing to shore. A cross gust of wind lifted one wing of the machine high in the air, toppled the aeroplane over on its back, and threw the occupants into the water.

Fighting his way down through the turbulent waters, which had been swept into fury by the storm, Atkinson smashed his way into the cabin of the machine, found that his passenger was not there and dived several times in an effort to find him.

Near exhaustion, Atkinson gave up the uneven battle and swam the dozen yards to shore.

The fatality occurred on July 15, and the pilot waited until the water gave up the body, July 18.

Terrified By Masked Rider

People In Hills Of Wyoming Receive Thrilling Letters

Wheatlands, Wyo.—Death threats signed "The Phantom Rider" received by several Fletcher Park ranchers, has added to the uneasiness spread by the recent appearance of a masked horseman who rides the rugged Laramie peaks on a snow-white horse.

Five men and a woman are reported to have received the letter which were placed in the hands of officers seeking the "Phantom Rider" who recently rode into the yard of Charles Adams, 29, and shot the rancher through the shoulder.

Posses searching the hills following the attack but were unable to apprehend the mysterious horseman whose beliefs connected with recent cases of cattle rustling.

Children Faint At Service

Madrid, Spain.—More than 2,000 children fainted at a Communion Service here. They had risen early and fasted for the ceremony. When the hot sun came out girls and boys alike dropped unconscious. A staff of 80 nurses in attendance were inadequate to care for the sick. A total of 30,000 children were present.

Beatty Issues Statement

Detailed Information On Air Service To Be Announced Later

Montreal.—In reference to the newspaper reports with respect to possible aviation developments in Canada, Mr. E. W. Beatty, chairman and president of the Canadian Pacific Railway Company, made the following statement:

"By amendments to its charter secured in 1919, the Canadian Pacific Railway Company was empowered to establish and operate services of aircraft of all kinds, and in recent years it has, through its express department, entered into contracts for express services with established Canadian air service companies. Discussions have taken place between the president of the Canadian National Railways and this company, looking to participation by both companies in the ownership of airway companies, both in eastern and western Canada, and these discussions have proceeded to the point where an agreement in principle has been reached.

"It is anticipated that each of the transcontinental railways will have an equal interest, and when negotiations have been concluded an announcement in greater detail will, no doubt, be made."

Seeking New Trade Treaty With Canada

New Zealand Official Coming To Ottawa To Discuss Matter

Wellington, N.Z.—With the view of negotiating a new trade treaty between New Zealand and Canada, Dr. Craig, controller of customs, will sail on August 12 for Ottawa to open discussions with the Canadian authorities and carry matters as far as possible before the opening of the Imperial Conference, in London, England.

Dr. Craig will subsequently go to London to assist in the Imperial Conference discussions on tariff and allied economic questions.

TRAIL OF DEATH FOLLOWS 'QUAKE IN SOUTH ITALY

Naples.—Amid the vine-clad hills of the Apennines the simple peasant folk of southern Italy had coveted their dead to the number of 679 in half a score of towns tumbled to ruins by a series of terrific earthquakes.

Government estimates placed the injured at more than a thousand, and the homeless at ten times that figure. Melt, picturesque mountain city, perched precariously upon the crater of the extinct Monte Vulture, was an area of ghastly debris. Even the ancient cathedral whose history in its several phases goes back to the ninth century, was wrecked.

The almost inaccessible nature of some of the areas devastated made difficult the work of succor and the estimation of casualties. Most of the towns hit the hardest are off the beaten paths of tourists, with poor transportation and almost inaccessible situations.

Several supply trains have been sent to points on the railroads in the interior from Naples, and hundreds of relief workers were penetrating the recesses of the agricultural area, offering aid to the still terror-stricken victims.

The quake stunned all Italy. It was the worst earthquake since Messina was all but obliterated in 1908. The first shock came an hour after midnight. Its own awful nature was supplemented by a tremendous electrical storm over virtually the whole affected area.

The shaken area extended from the Tyrrhenian sea to the Adriatic, but the coast settlements suffered less in proportion than the mountain populations. Naples experienced several hours of panic with several houses and scores of casualties. Among this city's victims was the Countess De Rossi Vargas. Never in all Neapolitan history had this classic city experienced such stark-mad fright. A frenzied populace raced through the streets apparently heading nowhere.

Wrecked bridges, snapped communication wires and many other obstacles had been tossed in the path of the relief workers by the upheaval of nature. Motor cars made little progress over unaccustomed routes.

The highways of the area are notoriously undeveloped and rail lines are few. A motorcade will pass through many gorges into which the quake had tumbled avalanches.

Several tunnels upon the road to Meli, where 180 persons perished, according to official figures, fell in and blocked service beyond restoration for many days.

BRITAIN MUST ADOPT BETTER TRADE METHODS

London, England.—British methods of selling in Canada are severely criticized in the report of F. W. Fields, senior British trade commissioner in Canada, which has been made public by the department of overseas trade.

Mr. Fields attacks "long distance" selling methods, the under payment of agents and the failure of British manufacturers to adapt themselves to the changing conditions in the Canadian market.

The criticism is endorsed by the Financial Times, which says: "The plain fact of the matter seems to be that the British have neglected to cultivate the Canadian market by the adoption of efficient methods of salesmanship and have allowed their American rivals to jump their claim. It is no longer possible to sell goods by correspondence, while it is often difficult to dispose of any large quantity of merchandise through agents on a commission basis."

"The Dominion has already done as much as she can reasonably be expected to do in giving British goods a preference which is estimated to mean a transference from American to British imports of £40,000,000 in trade and naturally Canadians are now looking to British to show appreciation of this great help in Empire unity."

Manitoba Appointments

Officials Named To Take Over Duties In Natural Resources Department

Winnipeg, Man.—The Manitoba Government has filled seven important positions in its new department of Natural Resources. They were made necessary through the removal of the resources from the Dominion. All seven appointees were formerly employed by the Canadian Government.

They are: Col. H. Stevenson, provincial forester, heading the forestry branch; L. P. O. Noel, assistant director of provincial lands; John Tod, timber sales officer; W. B. McLeish, mining recorder, to be stationed at Seven Sisters Falls; E. B. Patterson, mining inspector and engineer, to officiate as inspector of mining claims; E. B. Patterson, engineer of water power, branch, to be stationed at Seven Sisters Falls; E. B. Patterson, engineer of water power branch, to be stationed at Slave Falls.

The augmented department will have a personnel of approximately 135 when the staffs are complete, it was stated. Appointments in the forestry branch are now being considered.

U.S. Increases Population

Expect New Census To Show Population Of About 122,857,000

Washington, D.C.—A total of about 122,857,000 people—just a few thousand under 123,000,000—probably will be shown as the population of the United States for 1930, when the first census is announced by the director W. M. Stewart, of the census.

The 1929 population was 105,710,620. Should final figures bear out the calculation, the country would show a growth of around 17,246,000 people in the ten years.

This approximate total figure has been calculated by the Associated Press on the basis of actual preliminary returns from 40 states and the District of Columbia.

Offered Life Membership

Services Of Political Leaders Is Recognized By Canadian Legion

Ottawa, Ont.—Dominion honorary life membership in the Canadian Legion is being offered the Rt. Hon. W. L. Mackenzie King and the Hon. R. B. Bennett, Sir William Clarke, high commissioner for Great Britain, and the Hon. J. R. Brice, until recently the minister of Finance in Canada, in recognition of their outstanding services in the interests of the returned soldier body and to the legion. The first occasion of Dominion honorary life membership being awarded since the inception of the legion is announced by Lt.-Col. L. R. Lafchee, president of the Legion.

Celebrate Potato Day

Winnipeg, Man.—"Potato Day" is to be held in Winnipeg, either on August 6 or 7. A motorcade will visit potato plantations, speeches will be made, and housekeepers invited to co-operate in stimulating the growth of potatoes in the province. This is being done under the auspices of the Agricultural Bureau of the Board of Trade.

NOTES AND COMMENTS

The election is over—the country is saved, and every-
one will settle down to business or an August vacation.It has been a campaign of wild promises, especially in
regard to unemployment and its solution. None of the reme-
dies offered will solve the problem; they will provide
temporary relief, which is better than nothing.The pressure for advanced legislation to provide em-
ployment for every individual will necessarily come from
the champions of the working classes.Neither Mr. King or Mr. Bennett have or ever will
feel the necessity to press for legislation of this nature,
consequently as industrialization in Canada develops so will
the demand be made for more direct representation of the
farmers and the men engaged in industry.It will be by a process of evolution that the complexion
of parliament will be changed. Changing conditions will
force a change in the general policies of political parties.An amusing thing about governments is that when they
decide to spend money on public works of any nature, the
impression is created that they are handing out a gift.
When one remembers that the money or the credit in the
first place is furnished by the people of the Dominion, that
salaries and sessional indemnities of all engaged in govern-
mental work are derived from the whole of the people of
Canada, then one realizes how ridiculous it is for any mem-
ber of parliament or cabinet minister to strike the pose of a
public benefactor when he obtains something for his con-
stituents which the public pay for. Yet many votes are
captured by the method of making it appear that something
is being presented as a goodwill gift.The member that is really sincere in his desire to serve
the country will be constantly probing and delving into
deeper things than how best to serve his party. There un-
questionably must be organization to accomplish anything,
but this should not preclude the individual member doing
his own thinking instead of voting blindly for party.Mr. Bennett will have a majority sufficient to carry
any measure he may bring forward in the Federal house.
His promise to call a special session of Parliament to deal
with unemployment will be implemented, no doubt. He
cannot possibly delay without injuring his prestige.A surprise of the campaign to those outside of the cir-
cle of Regina politics was the defeat of Hon. Chas. A. Dun-
ning, on whose May-day budget the Liberals had based
such fond hopes. As premier of Saskatchewan and in a
business capacity outside of government circles Dunning
possessed acumen and ability far above the average. With
his departure from provincial politics into the Federal
arena, Liberalism in Saskatchewan immediately began to
decline, and to such an extent that even the glamor of
their favorite Charlie coming back as finance minister for
re-election failed to make the popular appeal. Such is the
fickleness of public opinion and dissatisfaction which is
shown against a government when a period of depression
sets in.The entrance to Coleman from the railway depot or by
the highway is unattractive. Strangers pass through with-
out giving the place a second thought, because the appear-
ance is so uninviting. He who tarries awhile and obtains
a more intimate knowledge of the place changes his first
opinion. Had the main section of the business area been
built a block north of its present location, it would escape
much of the annoyance of the coal dust which at times falls
like a pall over the main street. As we cannot pick up
main street and move it a block north, or move the coal
tipple or change the prevailing direction of the wind, the
only alternative is to overcome these difficulties by making
every effort possible to brighten up the buildings on main
street by painting them. This has been done by some
owners, but others are slow to follow suit. There are still
one or two dead men's names left on the sides of buildings
in large letters to remind us that they too, were once citi-
zens of Coleman. The graveyard is a place for memorials,
not the sides of business blocks.A conundrum: Why is it that candidates which are
endorsed by Labor organizations do not receive the majority
vote of working men? In the Provincial and Federal elec-
tions, majorities were given in the mining towns for can-
didates who were not endorsed by the Labor unions. Perhaps
someone can explain. The only conclusion to be arrived
at is that labor generally was so "fed up" that it was time
for a change.It is always pleasing to note the
progress made on gardens, espe-
cially in the centre of the town.
Two outstanding examples are
those of Frank Graham, sr., who
has made many blades of grass to
grow in what was formerly a gravel
bed, besides trees and flowering
plants, and Andy Oliva, who has
made a nice little park surround-
ing his home on Main street east,
where willows, poplars and lilac
bushes are making splendid growth.The result of the pigeon race
from Coutts to Coleman on Satur-
day was as follows: Pryde's Light-
ning Streak first; Anderson's
Thunder second; J. Sudworth's
Rain-in-the-face third. Time from
Coutts to Coleman 4 hours and 51
minutes, for the first bird home.
The season's races are creating keen
interest among pigeon fanciers.Mrs. Neil McKinnon is visiting
friends at Kimberley, B. C.

ALBERTA

Confidence Is The Mainspring of Progress

A merchant sells goods in a community. To retain and develop business he must have the confidence of the people to whom he sells, and he must have confidence in the goods he advertises for sale.

Advertising begets confidence.

Advertising increases sales, particularly if it is carried on persistently, and in a manner to interest the people, in every issue of The Journal.

John Wannamaker, one of the greatest merchandising princes the world has known, had such confidence in advertising that his first \$25.00 profit he re-invested back in advertising in the newspaper.

It is the persistent effort in advertising which builds business and begets confidence.

The public undoubtedly buy far more goods from advertisers than from those who do not advertise.

Advertising expense is just as necessary a part of overhead expense as taxes and insurance.

The advertiser demonstrates that he has confidence in his business to serve the public, and it develops confidence of the public in the stores that advertise.

Make it part of your weekly duty to see that you have an advertisement of your goods in The Journal.

Its the most effective way to secure local business.

It is ahead of any other form of advertising.

There Are Many Fine Fish To Be Caught

Local News

Mr. Ferguson and Joy left on Monday to visit friends in Regina.

Mrs. J. Nash and daughters are holidaying with friends at Coalhurst.

Mr. and Mrs. A. M. Morrison and Ruth left on Sunday by auto for a trip to Toronto.

Edna Fairhurst and Ethel Wilson have been spending a week at Waterton Lake.

Allan Brown of West Coleman is spending two weeks holiday in Edmonton.

Mr. and Mrs. Hoyle and family returned last week from a holiday trip to Edmonton.

Coleman Hill Baseball team defeated Bellevue this week by a score of 13-11.

Harvey Murphy, Communist organizer, arrived in town this morning.

Mr. and Mrs. Frank Celli are at present staying on their ranch at Creeton.

Miss Mildred Brown of Springfield is visiting with Mr. and Mrs. J. L. Lonsbury.

Born: To Mr. and Mrs. F. G. Graham, at Edmonton, on July 22, a son.

Mr. and Mrs. Chas. Graham and children of Lacombe are spending a week here visiting relatives and friends.

With the inauguration of the air mail route it will be possible to make a return trip from Coleman to Vancouver in one day.

Mr. and Mrs. J. A. McLeod and children left this morning by car for Halifax, N.S., on a two months holiday tour.

Mr. and Mrs. McBurney and Mr. and Mrs. A. Barlow of Bellevue are spending a few days camping at South Fork.

Mr. and Mrs. A. F. Short and children returned on Monday from an auto trip to Lake Louise, Banff and Sylvan Lake.

J. D. Matheson made a wonderful run in Macleod constituency. He should be gratified at the fine vote given him in his own town of Macleod—Lethbridge Herald.

Miss Hilda Fairhurst of the Nursing Mission, Lethbridge, returned there this morning, after spending a month's holiday at Binff and Calgary.

Angelo Gentile, baseball enthusiast, gathered up a team of players from Corbin to Pincher Creek and left yesterday afternoon to compete in the big ball tournament at Lethbridge, for which \$1,000 is being awarded in prizes.

A party including W. Burns, J. Houghton, Harold and Herb Snowdon, A. E. Guerdan and Henry Tibberghien, spent a week at North Fork fishing.

John Clarke, of Ponoka, visited his brother E. C. (Bud) Clarke this week, and was accompanied by Miss Patterson. They are both on the staff of the Mental hospital and were taking an auto trip over the Windermere trail.

Coleman baseball club (hill team) defeated Bellevue last week by a score of 6-2. Kapalka struck out 18, while Emmerson of the home team made a nice catch of a home run hit with two men on bases. The game was played at Bellevue, and the return game was played here on Friday.

Mr. J. J. Smith of Regina, Deputy Minister of Municipal Affairs for the Province of Saskatchewan, accompanied by Mrs. Smith and daughter, Marguerite, and Mr. Smith's brother, Fr. Wilfred Smith, Chaplain of St. Michael's Hospital, Toronto, are the guests of Mrs. T. B. Smith, Third St., this week.

The next competition of the Rod & Gun Club will be held at South Fork on Sunday, leaving Coleman at 6 a.m. Names of those intending to compete must be handed to the secretary, E. W. Beart, or Alf Phillips, before 6:30 p.m. on Friday in order to enable arrangements for transportation to be made.

Majority for Matheson in Mining Towns
(Continued from Page One)
local campaign for the Conservative candidate, while Bill McGrath took charge of the committee room.

For Mr. Coote the officials of the local Miners Union put in good work, and as a wind-up to their campaign a very stirring address was given by Wm. Irvine, U.F.A. member for Wetaskiwin, on Friday last.

Did You Ever Stop to Think?

(By Edson R. Waite, Shawnee, Okla.)
Gordon Miller, managing editor of the Sherbrooke (Quebec) Daily Record, says:—

That people who persistently buy from door to door peddlers admit their lack of faith in the home city.

If does them no good and they usually get articles inferior to what can be bought at the stores of the home city.

Quality and price go hand in hand. Local merchants aim to handle only merchandise of standard quality. If any manufacturer put over inferior quality on them and they pass it on to you, they are easy to find and will make quick adjustment. When you buy from a peddler, there is no adjustment.

When you buy from peddlers, you brand yourself as a failure in helping to build the home city.

If all citizens patronized peddlers, there would be no home city.

Citizens who persistently buy from peddlers serve notice to their neighbors that they are helping to wreck the home city. They admit their failure as good citizens.

Buy from the merchants of your home city. Don't pull down the business of your city by sending your money away to build up business for some other city.

Exponents of the Royal and Ancient Game went down to defeat on the Banff Springs Hotel golf course recently when Indian Archery experts played in a nine-hole foursome between two Indian chiefs, Lone Walker and Lone Eagle, and William Thompson, professional on the course, and his daughter, Peggy Dalziel, former Alberta lady golf champion. The ladies shot their golfers from the tees while the golfers played in orthodox fashion. The archers "holed in" a four-inch disc standing on end on the cup. Up to the ninth hole the game was tied, but the Indians won the latter with one stroke.

The Pluribus Opera, opening number presented at Banff Springs Hotel by the Alfred Heather Light Opera Company, that is running a summer season at the well-known Rockies resort, proved an unequalled success, while "The Young Waterman," which followed it, was an even greater hit. The season will run during July and August and a number of 18th century operas with Gilbert and Sullivan and Canadian works will be given.

Sunday, July 20, will see nearly a hundred tourists leave Montreal and Toronto on the seventh annual Across Canada tour organized by Deane Sinclair Laird, of Macdonald College, Quebec. They will travel over 6,000 miles in visiting the Pacific Coast, Vancouver Island, Rocky Mountains Parks, the Prairie Provinces and almost every district of outstanding beauty as well as those of industrial and historical interest in Central and Western Canada.

Automatic heat regulation has now been installed for the first time in Canada as regular equipment on railway passenger cars with the introduction by the Canadian Pacific Railway of their new "S" type standard sleepers, constructed at the new shops, Montreal, to the design of the company's experts. Two of them are already in use on the "Trans-Canada Limited."

A bronze memorial tablet marking the house in Fredericton, where Bliss Carman, Canadian poet, spent his boyhood days, has been unveiled in the New Brunswick capital by the Imperial Order Daughters of the Empire, New Brunswick section.

F. W. Bishop, president of the United Fruit Companies of Nova Scotia, stated recently that fruit growers in the province expected a bumper crop of good quality fruit this year. He was of the opinion that the crop would be about 50 or 60 per cent high grade.

The National Dairy Council of Canada in a recent report stated that Saskatchewan stood third in the Dominion in the matter of estimated gross revenue from dairy products in 1929. The figures are given at \$21,000,000 as compared with \$20,375,000 the previous year.

Total production of maple syrup in Canada for 1930 was 2,185,579 gallons valued at \$3,863,197, and of maple sugar \$208,276 pounds, valued at \$1,281,513. Average market price of maple syrup was \$1.77 a gallon, and of maple sugar 17 cents a pound. The Province of Quebec was the largest producer and balance came from Ontario, Nova Scotia and New Brunswick.

MACLEAN'S

Twice a Month
\$2.00 one year
\$5.00 three years

Maclean's Magazine entertains: It is National—not sectional—it is Canadian—written and edited for Canadians and because it is what it is, it is giving its readers a service that they cannot buy from any other periodical under the sun.

Beautiful Gown Display in "High Society Blues"

Unusually beautiful gowns are a feature of "High Society Blues," Fox Movietone musical romance, featuring Janet Gaynor and Charles Farrell, at the Palace theatre soon. Gowns, in advance of the current mode, were designed especially for this production by Madame Sophie Wachner, costume originator and designer for the Fox Studios. Mme. Wachner designed stage

costumes for several years in New York and then spent several years in Paris, "post graduating."

The cast of "High Society Blues" includes William Collier, Sr., Lucien Littlefield, Brian Hurst and Gregory Gays. David Butler directed.

Corrie Celli received a very pleasant surprise last week when he received the news from his school in Vancouver that he had passed his examinations in pianoforte with first class honors.
